

INTENDED USE

Bracket for SmartCleat®, with two possible installation positions at 0° and 45°. Designed for single core cable cleats, especially for Array and other cables for the Wind Industry.

INSTRUCTION FOR USE

Fix SmartCleat® to bracket in desired position using M6x12 bolt.

Fit bracket loosely to channel using M10 self locking bolts, adjust and tightening securely.

Bracket allows the cleat to be fixed in 45° and 0°
