

INTENDED USE

Gusset plate for Mekano® CH50-2T in all thicknesses to provide extra support for heavier loads and supporting junctions. Highly recommended for L- and T-supports.

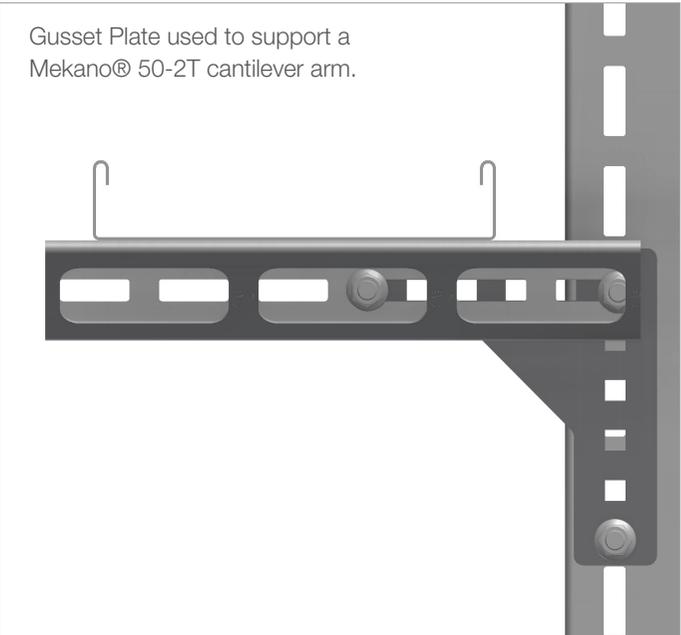

INSTRUCTION FOR USE

Fit the Gusset Plate between the sections requiring extra support.

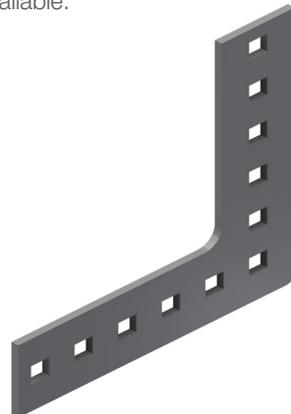

Fix together using M10 self locking bolts. The large hole on the back of the channel allows the bolts to be easily fitted.

Gusset Plate used to support a Mekano® 50-2T cantilever arm.

Where space is limited, a variant without corner support is also available.

Gusset plate supporting a CH50-2T beam and drop support.

Gusset plates are recommended for U-support, when CH50-2T is used horizontally and when supporting heavy loads.
