

INTENDED USE

Arm for supporting LOE/TOE cable trays from central support brackets. Available in widths to suit cable ladders 200 mm - 600 mm. Can also be used for pipe support. Long bolt slots allow for adjustment of the position of the vertical support.

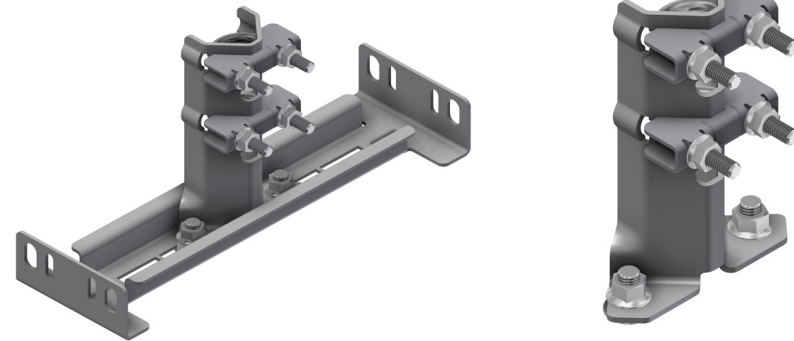

INSTRUCTION FOR USE

Attach the bracket to the central support bracket using self locking bolts. Adjust and tighten securely.

Support bracket with arm for cable ladders from 200 - 600 mm

Suitable for fixing to central rock bolt bracket

Suitable for fixing to central pendulum bracket
