## USER GUIDE • EXIT PLATE A-SPB/OE-50 EX SS

SPB - Protection Equipment

## **INTENDED USE**

Exit Plates used to safely support cables over the side rail or ends of cable trays and OE cable ladders. Can also be used on Mekano® CH100-2T. Design of holes is optimised for cable ties in multiple directions.

Allows for cables routed +/-45° to be fixed with metal strips without damage to the cable.

## INSTRUCTION FOR USE

Fit exit plate on the inside of cable ladders or outside of cable trays.

Attach the Exit Plate(s) loosely in the desired location.

For cable trays use: M6 self locking bolts. For cable ladders use: M10 self locking bolts.

Adjust and tighten securely.
