

INTENDED USE

Bracket for support from rock bolts.

Available In 2 types:

- Suitable for rock bolts Ø 16-25 mm
(Recommended for Ø 20-25 mm)
- Suitable for rock bolts Ø 32 mm.

Support arms available to suit LOE/TOE cable ladders in widths 200 mm - 600 mm.

Can also be used for pipe support.

INSTRUCTION FOR USE

Attach the bracket to the rock bolt using U bolts supplied and tighten securely.

The support bracket can then be attached using self locking bolts. When using M8 SS U-bolts, torque to 20Nm Max, otherwise see standard torque recommendations.
