

INTENDED USE

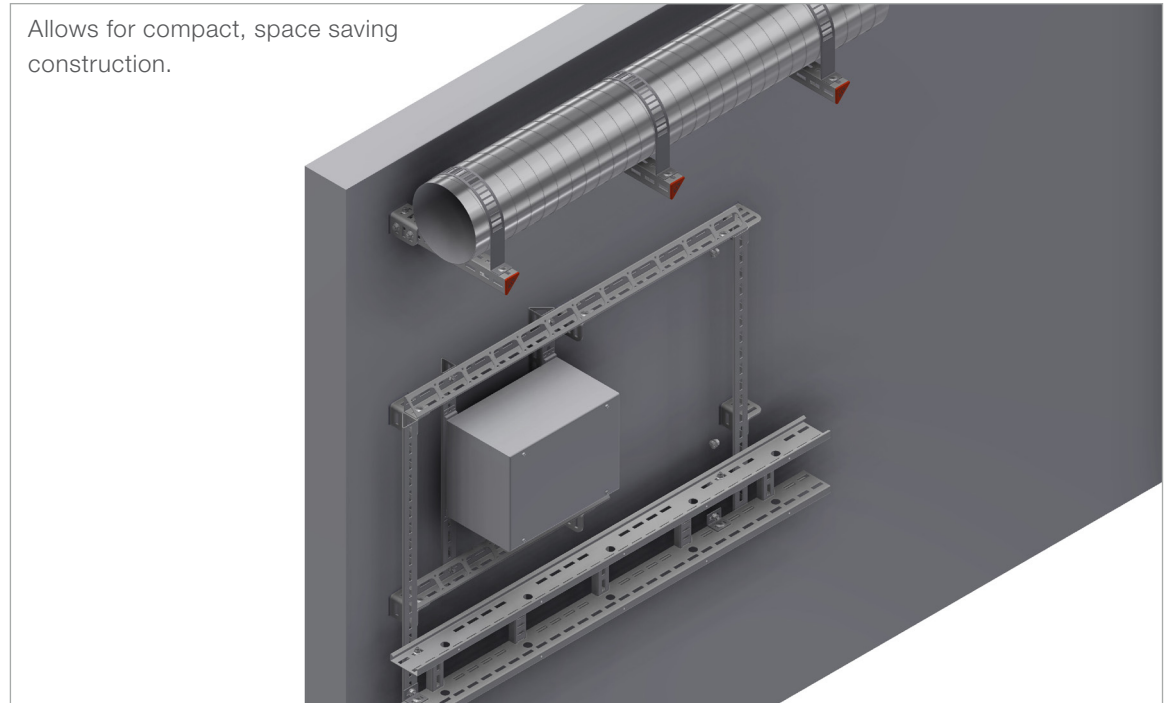

Welded brackets suitable where space is limited or compact design is required. Compatible with Mekano® CH50 2T and CH100 2T.

INSTRUCTION FOR USE

Weld the bracket to the structure and paint.
Sand/grind the paint on the bolting surfaces to use as earth connection as required.

Suitable for use with M10 self locking bolts.

Allows for compact, space saving construction.

Suitable for ceiling and walls.

For use with Mekano® CH50 2T and CH100 2T
