

SPB - Fittings

## **INTENDED USE**

Standard Flat Elbow 45° and 90° with integrated splice connectors. Standard radius is 75 mm.

## INSTRUCTION FOR USE

- 1. Bend the integrated splice connector by hand to fit inside Cable Tray.
- 2. Slide Flat Elbow inside Cable Tray.
- 3. Repeat steps 1 and 2, to fit the Cable Tray on the other side. The Flat Elbow is now situated inside the two cable trays.
- 4. Attach the integrated splice connectors to the 2 cable trays loosely with self locking bolts.
  - If the Cable Tray width is 200 mm or wider, attach the bottoms together with self locking bolts.
- 5. Adjust and tighten securely.
